

MB 3

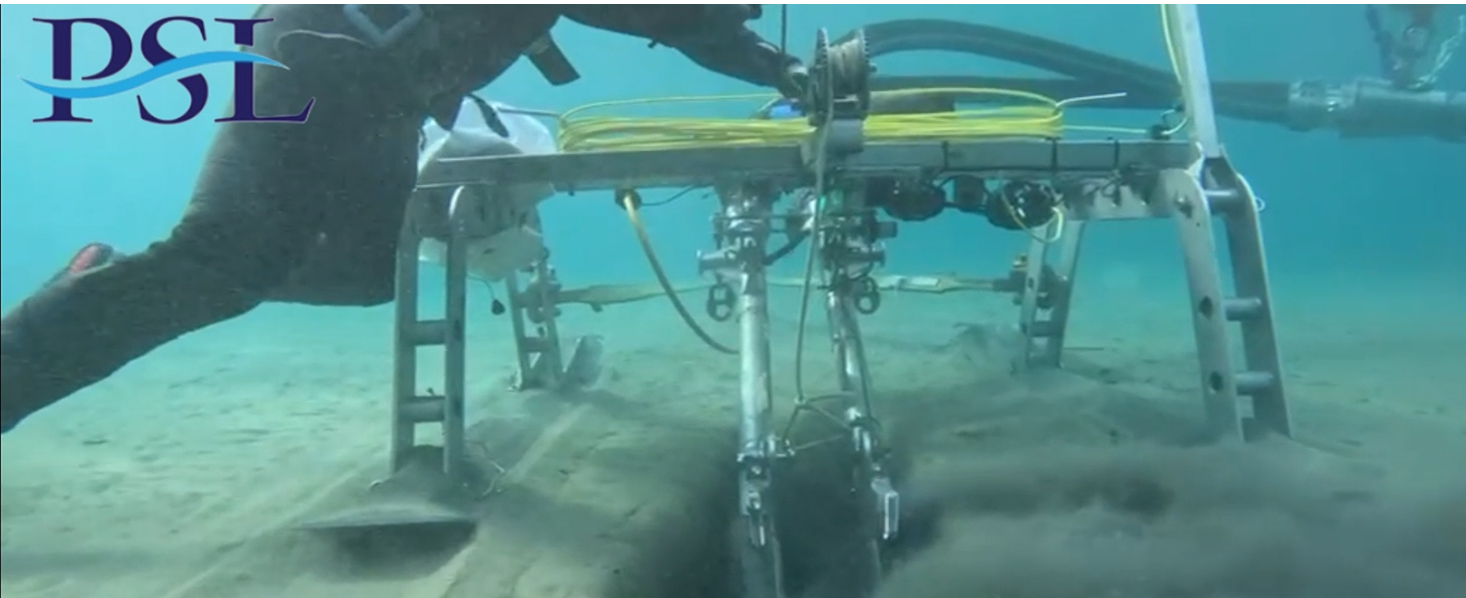

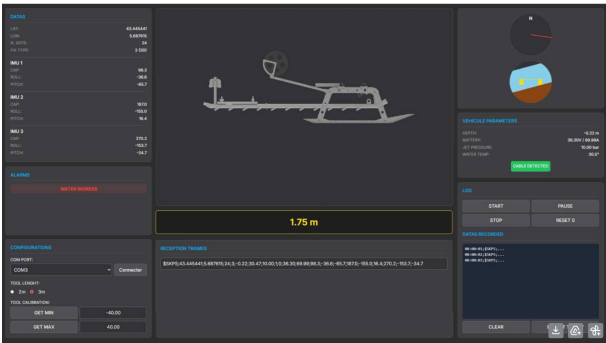

"SKORPIOS" Subsea Trenching Tool Support Dive Pontoon

MB3 is a self-propelled modular shallow water multipurpose Pontoon specially constructed to support the SKORPIOS Series Jet Trenchers and the related diving operations. It can be transported in sections on one 40ft standard size trailer, and assembled into a working platform in three hours and be fitted with various configurations of installation equipment. The barge is expandable to easily accommodate larger loads.

KEY FEATURES

- Lightweight aluminum modular design, easy to transport
- Excellent maneuverability
- Total deck area 40 m²
- Designed for and equipped with the SKORPIOS Series Cable Trenching Spread and commercial diving equipment
